

Print Image Review Guidelines

Ballina Photography Club

Print images are discussed and reviewed along with the digital images once a month at the second meeting (fourth Thursday night) of the month.

Prints can be home or commercially printed. Most members use A4 (home printing) or 8 x 12 inches (commercially printed (by Harvey Norman, Big W or K-Mart)).

To display the prints at the print meeting, you should use these guidelines:

- Images must be presented on a board (flat mounted) or in a window mat cut to the size of the image. Prints cannot be displayed without a backing/support board.
- Mats (cut to A4 or 8x12 inch) can be purchased from Ballina Art & Framing in packs of six for \$36.00. Alternately, you can cut your own mats and sheets (32 x 40 inches) which are also available at \$12.00 per sheet.
- Members need to bring their prints to the meeting and take them home that night.
- Ideally, the print should also include your name somewhere.

Ask other club members if you require more information.
